PROJECTS

Password-Manager (React, Tailwind CSS)

Github link:-https://github.com/RiteshPathak15/Password-Manager.git

About

Built a password manager where users can securely add and store website links, usernames, and passwords.Utilized local storage to retain user data, with features for easy data management and retrieval.

Feedback-Platform (MERN STACK)

Github link:-https://github.com/RiteshPathak15/Feedback-Platform.git

About

An interactive platform where users can review and rate products, share feedback, and engage with brands. Features in development include product listings, feedback submissions with ratings and media, user profiles, and social interactions. .
